

```

interface Mail {
    void sendMail();
    void log();
}

class MailImpl implements Mail {
    @Override
    void sendMail() {
        System.out.println("gu Mail");
    }
    @Override
    void log() {
        System.out.println("gu Log");
    }
}

class Main {
    public static void main(String[] args) {
        MailImpl sc1 = new MailImpl();
        sc1.sendMail();
        sc1 sc1.log();
    }
}

```
